NEW REGULATIONS FOR THE RESERVES

New Regulations for the Reserves were promulgated in the Government Gazette on Friday 2 June 2017. These replace the previous ones published in 2009 which had become outdated in the light of the extensive deployment of the Reserves.

The new Regulations provide certainty for Reserve members with regard to updated service conditions and benefits. They also describe the Service Contract and provide specimen call-up instructions for both continuous and non-continuous service.

The new Regulations can be found by clicking on “Regulations” on the Home page.
